World War Z - by Max Brooks

Soon to be a major motion picture (that will only vaguely, if at all, resemble the book it's based upon), *World War Z* is presented as a written documentation of different individuals' first-hand experiences. Because it's an "oral history," the audio book is really worth checking out, as well.

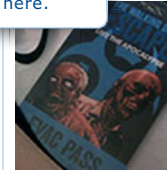

Price: \$11.51

The Zombie Survival Guide - by Max Brooks

If you've ever been party to a heated debate about what you'll do if (when?) the zombie apocalypse happens, your plan is most likely flawed until you've consulted *The Zombie Survival Guide: Complete Protection from the Living Dead*. It's okay to refer to this as a parody, until you really need it.

Price: \$11.49

Romero released the movie *Night of the Living Dead* in 1968, during the Vietnam War. In a way, every zombie story since has been, to some extent, a guiltless war story. Amid the zombie hordes, we

follow the everyman hero as he faces an enemy that is beyond human and therefore beyond reason or redemption. Likewise these stories have been, like some of the greatest literature, social commentary -- a vehicle by which to confront our own ethics and morals.

The Walking Dead: Compendium One - by Robert Kirkman, Charlie Adlard, Cliff Rathburn and Tony Moore

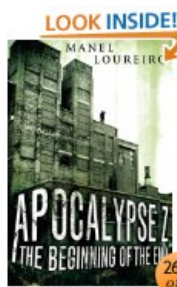

The Walking Dead has shot to the top of zombie storytelling, spanning TV screen, novels, video games, and board games. But the graphic novels that spawned the phenomenon continue to take their own, often grittier and more graphic, narrative path. Numbering more than 100 issues and counting, reading them all may seem a daunting endeavor, but it's well worth the effort. Plus, the

compendium releases make it particularly convenient.

Price: \$35.00

Apocalypse Z: The Beginning of the End - by Manel Loureiro

Written as a series of blog posts, *Apocalypse Z: The Beginning of the End* chronicles the fall as well as the blogger's personal journey as he copes with personal loss and a drastically changing world.

Price: \$10.99

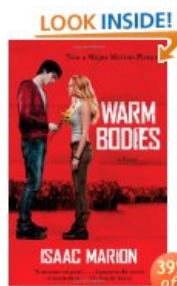

Get to Know the Walking Dead by Robin A. Rothman

Maybe you're the type who'll be overheard exclaiming "Oh! I love *The Walking Dead*!" Maybe you're more inclined to ask "What is *The Walking Dead*?" Both are legitimate sentiments; but depending on when they're expressed, they can easily mean any number of things. Here's a quick primer for newbies and fans alike to the many facets of this ever-expanding post-apocalyptic zombie-verse...

• [Read More on Omnivoracious](#)

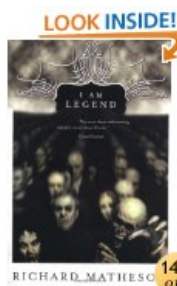

Warm Bodies - by Isaac Marion

The film version of this girl-meets-zombie ("zom-rom-com" as the Huffington Post so perfectly put it) won its opening weekend at the box office and landed a 79% at Rotten Tomatoes. But like we usually say about adaptations, reading the source material at the very least helps readers understand the story the author truly told. *Warm Bodies* is no exception.

Price: \$9.16

I Am Legend - by Richard Matheson

Published in 1957 but set two decades later, *I Am Legend* may technically belong to the vampire subgenre, but its influence has directly impacted anything you probably love about zombies today. No write-up of it is complete without name-checking the granddaddy of zombie flicks, George Romero, and horror books master Stephen King, both of whom were greatly influenced by this book.

Price: \$13.81

Get Smitten with Zombie Romance by Robin A. Rothman

The popularity of zombie romance has been spreading like a virus among young adult readers for quite some time as quirky one-offs and entire series base themselves on these brain-eaters. For genre purists, the story involves at least one undead protagonist. Marion, for example tells his story in first person from the zombie's point of view, allowing us to experience his emotional reanimation as he falls in love. For the more lenient, a zombie romance can be any love story told in post-apocalyptic setting.

The Newsflesh Trilogy - by Seanan McGuire (as Mira Grant)

A solid, well-thought-out, intensely detailed YA series, *The Newsflesh Trilogy* provides a fresh perspective in its approach to the genre. Set 25 years in the future (putting the fall in our present/near future), this series maintains a governmental organization absent in many zombie tales and our protagonists are newsgatherers in that world.

Price: \$25.99

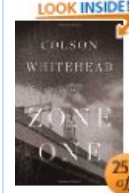

Pride and Prejudice and Zombies - by Seth Grahame-Smith

Austen fans either find this interpolation in conflict with their literary sensibilities or clever to an infectious degree. Like the original, the opening line of *Pride and Prejudice and Zombies* will make or break this novel for you: "It is a truth universally acknowledged that a zombie in possession of brains must be in want of more brains."

Price: \$11.04

An Interview with Colson Whitehead and More by Chris Schlupe

Here's a list of some good zombie books that I'm aware of, as well as a conversation I had with Colson Whitehead a few months back when his zombie novel *Zone One* was coming out. I noticed that he cites *The Walking Dead* graphic novels as one of his influences. If it's also one of yours, you may like a book or two on this list....

• [Read More on Omnivoracious](#)

The Zombie Combat Manual - by Roger Ma

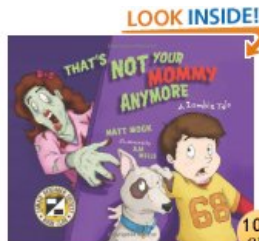

Before stockpiling of supplies or fortifying the perfect hideout can be of any use, a real survivor has to know how to defend him or herself against the undead. *The Zombie Combat Manual: A Guide to Fighting the Living Dead* dissects the physical strengths and weaknesses of the undead and explores combat alternatives for various situations. It's a great companion to Brooks's survival

guide.

Price: \$12.38

That's Not Your Mommy Anymore - by Matt Mogk

A fantastic zombified twist on the traditional help-a-child-understand book, *That's Not Your Mommy Anymore* is cleverly written and engagingly illustrated. As things stand, moms will get a kick out of it, but if the worst should

occur, dads might find themselves solemnly handing it over to their little ones.
